Occupational Health And Safety Trainings: Mining And Industry

Tranings Overview - Please provide description

Lorem Ipsum is simply dummy text of the printing and typesetting industry. Lorem Ipsum has been the industry's standard dummy text ever since the 1500s, when an unknown printer took a galley of type and scrambled it to make a type specimen book. It has survived not only five centuries, but also the leap into electronic typesetting, remaining essentially unchanged. It was popularised in the 1960s with the release of Letraset sheets containing Lorem Ipsum passages, and more recently with desktop publishing software like Aldus PageMaker includin

01 Occupational Health And Safety Trainings: Mining And Industry

SHE Rep Mining

A comprehensive look at Safety Rep Functions, health and Safety Principles and HIRA. Underground practical as well as other practical are compulsory for this course

TARGET GR
Only Appointed SHE Reps

10 days **R 8063.00**

MHS Legal Liability Industry Legal Liability Course

An in depth look into the legal obligations and statutory requirements per appointment

TARGET GR
Managers

2 days **R 2043.00**

Industry SHE Rep

This course is about the roles and responsibilities of Health and Safety Representatives as stipulated in OHSA. It also extrapolates the practical challenges and activities of the SHE Rep. Inspection as the core function of the SHE Rep is explained

TARGET GR
Employees and Everyone

3 days **R 3118.00**

First Aid Level 1

Basic understanding of what to do when a person/employee is injured and how to use First Aid Kit box.

TARGET GR
Anyonee

2 days **R 1054.00**

First Aid Level 2

Practical understanding of what to do when a person/employee is injured and how to use First Aid

TARGET GR
Anyone

3 days **R 1720.00**

First Aid Level 3

Practical know-how of all main critical functions performed by the First Aider. All the main

TARGET GR
Anyone, Managers

4 days **R 3118.00**

First Aid Skills Programme (First Aid Level 1-3)

This is combination of First Aid level 1 to 3 based on MQA accreditation. It can be tailor made to the requirements of our clients, especially for underground and surface operations.

TARGET GR
Anyone

10 days **R 5590.00**

Snake Handling Awareness Training

This course's main objective is to create an awareness on snakes in general and how they should be handled should the need arise on site or an any place they are in contact with humans

TARGET GR
Anyone

2 days **R 1828.00**

Basic Fire Fighting LEVEL 1

An understanding of different types of fires, different types of fire extinguishers, and the main courses of fires. To deal with fire and how to prepare for any possible fire will be part of the course

TARGET GR
Employees, Fire Coordinators

2 days **R 1451.00**

Working at Heights

Understanding of Fall Arrest System, Fall Prevention and Fall Protection Plan as well as fitting and adjusting full body harness

TARGET GR
Construction employees, Anyone working at height

1 day **R 1054.00**

Industry Legal Liability Course

An in depth look into the legal obligations and statutory requirements per appointment

TARGET GR
All Managers

1 day **R 1666.00**

Risk Assessment (HIRA)

Provide learners with a systematic way of identifying hazards, then converting hazards to risks. It also teaches learners how to rank risks, thus prioritizing mitigations. The three types of Risk Assessment are thoroughly discussed.

TARGET GR
Top Management Project leaders SHE Reps

2 days **R 2043.00**

Environmental Management Training

Overview of the NEMA and international best practices as will know Env Principles

TARGET GR
Managers

3 days **R 2096.00**

Advance Incident Investigation

Explain the specified requirements pertaining to conducting a preliminary investigation into workplace incidents. Gather information for the preliminary investigation. Perform post investigation activities.

TARGET GR
SHE Reps Managers
Supervisors

3 days **R 1774.00**

Hand tools and power tools

Demonstrate knowledge of technology to use and maintain power hand tool

TARGET GR
Supervisors,
Artisans, Skilled Workers

1 day **R 1054.00**

Scaffold Erector

Assist to erect, use & dismantle access scaffolding

TARGET GR
Supervisors,
Artisans, Skilled

2 days **R 1828.00**

Scaffold Inspector

Erect, use and dismantle access scaffolding

TARGET GR
Supervisors,
Artisans

2 days **R 1451.00**

Hazardous Chemical Substance Control

Conduct a continuous risk assessment in a workplace

TARGET GR
Supervisors,
Artisans, Skilled Workers

2 days **R 1559.00**

Spill Management

Respond, control, manage and prevent hazardous chemical spillages.

TARGET GR
Supervisors,
Artisans, Skilled Workers

1 day **R 1612.00**

Safety Leadership for Supervisors

The role played by a supervisor and their commitment as a leader as well as their attributes in their management style. Outline their responsibilities and what is expected from them.

TARGET GR
Supervisors,
Artisans, Skilled Workers

1 day **R 3333.00**

Ergonomics

Conduct an ergonomic assessment and take action

TARGET GR
Supervisors,
Artisans, Skilled Workers

1 day **R 860.00**

Road Safety Training

Conduct risk assessments in road traffic management and ensure warnings and restrictions are implemented to protect workers and road users

TARGET GR
Supervisors,
Artisans, Skilled Workers

1 day **R 1559.00**

Conveyer belt Training

Transfer material by means of a conveyor belt

TARGET GR
Supervisors,
Artisans, Skilled Workers

1 day **R 1290.00**

Competent A

The successful candidate will be able to examine & declare a workplace safe in underground hard rock operations

TARGET GR
Supervisors,
Artisans, Skilled Workers

33 days **R 9245.00**

Competent B

Installation & maintenance of any support unit & the removal of temporary support units in underground hard rock operations

TARGET GR
Supervisors,
Artisans, Skilled Workers

21 days **R 7633.00**

Blasting Assistant

To equip people with the required competencies to conduct safe & efficient blasting & other associated activities in an underground environment

TARGET GR
Supervisors,
Artisans, Skilled Workers

28 days **R 6665.00**

Underground Trackless Mobile Machinery (TMM)

This skills programme is designed to provide qualifying learners with the applied competence to operate trackless mobile machines used in underground mechanized mining operations

TARGET GR
Supervisors,
Artisans, Skilled Workers

44 days **R 9030.00**

Surface Excavation Mobile Machinery

Candidates are able to operate mobile machinery in surface mining and quarrying operations

TARGET GR
Supervisors,
Artisans, Skilled Workers

44 days **R 9030.00**

Effective Team Talks/Toolbox Talks

This course equips learners with knowledge, understanding and technique of an effective methodology for conducting impactful toolbox/team talks.

TARGET GR
Line Managers/
Supervisors/ She Officers/
SHE Reps

1 day **R 645.00**

Effective Health And Safety Supervision

This course equips learners with knowledge, understanding and technique of an effective methodology for conducting effective health and safety supervision in any workplace, with emphasis on occupational legislation and case studies.

TARGET GR
Line Managers/
Supervisors/ She Officers/
SHE Reps

1 day **R 1290.00**

Effective Health And Safety Management Workshop

This course equips learners with knowledge, understanding and technique of an effective methodology for conducting effective health and safety supervision in any workplace, with emphasis on occupational legislation and case studies.

1 day **R 2687.50**

TARGET GR
Line Managers/ Supervisors/ She Officers/ SHE Reps

Effective Business Continuity

This course equips learners with knowledge and understanding of what business continuity is and how to avoid turning an incident into a catastrophe, with emphasis on occupational legislation, good practices and case studies.

1 day **R 2473.00**

TARGET GR
Line Managers/ Supervisors/She Officers/ SHE Reps

Fall Arrest and Basic rescue

Uses & installation of lifeline, perform basic rescue and implement the Fall Protection Plan.

2 days **R 1989.00**

TARGET GR
Anyone

Storeman

This qualification is designed to equip individuals with essential skills for proficient store management.

1 day **R 1290.00**

TARGET GR
Anyone

PPE – Personal Protective Equipment

This unit standard outlines the requirements for the use and application of PPE in a workplace, including safety rules, maintenance, and emergency procedures.

1 day **R 1290.00**

TARGET GR
Anyone

PTO – Planned Task Observation

The Planned Task Observation (PTO) is a structured process used to identify and control workplace risks

1 day **R 1070.00**

TARGET GR
Anyone

Basic Rigging

The SAQA unit standard for basic rigging equips learners to safely lift, move, and stack loads using appropriate lifting equipment under supervision.

TARGET GR
Anyone

1 day **R 1290.00**

Hazmet

Deal with hazardous materials

TARGET GR
Anyone

1 day **R 1398.00**

Stacking & storage

SAQA Unit Standard 254098: This unit standard covers the competencies required for procuring, receiving, using, and storing materials in accordance with site procedures and safety specifications. It emphasizes the importance of proper storage methods, safety measures, and compliance with company policies.

TARGET GR
Anyone

1 day **R 1070.00**

Confined Space

To obtain a Confined Space SAQA ID, you can pursue training that equips you with the necessary knowledge and skills to work safely in confined spaces.

TARGET GR
Anyone

1 day **R 1070.00**

ICAM

The ICAM (Incident Cause Analysis Method) is a systematic approach used to analyze incidents, accidents, or near-misses to determine their root causes and prevent recurrence. It is designed to equip individuals with the skills and methodology necessary for effective incident investigations in the workplace.

TARGET GR
Anyone

3 days **R 2043.00**

Emergency Preparedness

This unit standard requires learners to demonstrate basic knowledge and understanding of emergency preparedness and response, covering various types of emergencies and their effects on workplace health and safety.

TARGET GR
Anyone

1 day **R 1070.00**

Advanced Fire Fighting

Advanced Fire Fighting course is designed for individuals who have completed the basic firefighting training (Level 1). This course focuses on advanced skills and knowledge in firefighting and emergency response.

TARGET GR
Anyone

3 days **R 2903.00**

POCL

This course is for line supervisor and levels up. Is an introduction to functions of management. Learners should be able to think and act according to management. It is a transitional process from an employee to management/ employer.

TARGET GR
Line Managers/ Supervisors/She Officers/ Team Leaders

5 days **R 4838.00**

Machinery Trainings: Mining And Construction

Tranings Overview

Machinery Training in Mining and Construction equips you with practical, industry-ready skills that are in high demand. Gain hands-on experience operating heavy equipment safely and efficiently in real working environments. This training enhances your employability and opens doors to opportunities in both local and international projects. You will learn essential safety standards, maintenance basics, and professional work practices. Graduates stand out with certified competence, confidence, and the ability to deliver results on site. Invest in your future and become a skilled operator ready to build, move, and shape the world.

02 Machinery Trainings: Mining And Construction

TLB

The learner will learn about Key Components of the machine, how to safely operate the machine and SOP related to the machine.

10 days **R 5913.00**

TARGET GR
Operators

Folklift

The learner will learn about Key Components of the machine, how to safely operate the machine and SOP related to the machine.

10 days **R 3118.00**

TARGET GR
Operators

Excavator

The learner will learn about Key Components of the machine, how to safely operate the machine and SOP related to the machine.

10 days **R 8385.00**

TARGET GR
Operators

Tipper Truck (10 ton)

The learner will learn about Key Components of the machine, how to safely operate the machine and SOP related to the machine.

10 days **R 5160.00**

TARGET GR
Operators

ADT

The learner will learn about Key Components of the machine, how to safely operate the machine and SOP related to the machine.

10 days **R 6235.00**

TARGET GR
Operators

Front End Loader (FEL)

The learner will learn about Key Components of the machine, how to safely operate the machine and SOP related to the machine.

10 days **R 6988.00**

TARGET GR
Operators

LDV (CAT 740GC & 966L)

The learner will learn about Key Components of the machine, how to safely operate the machine and SOP related to the machine. **This to be done at the Mine only for mine.**

10 days **R 5055.00**

TARGET GR
Operators

Dozer (D9R)

The learner will learn about Key Components of the machine, how to safely operate the machine and SOP related to the machine. **This to be done at the Mine only for mine.**

10 days **R 7310.00**

TARGET GR
Operators

Roller

The learner will learn about Key Components of the machine, how to safely operate the machine and SOP related to the machine. **This to be done at the Mine only for mine.**

10 days **R 3763.00**

TARGET GR
Operators

Civil Construction Trainings: Short Courses

Tranings Overview

Civil Construction Training Short Courses at B-Safe Africa Training Academy are designed to equip learners with practical skills and industry-relevant knowledge for immediate application on real construction sites. These programmes enhance employability by aligning training with current safety standards, technical requirements, and workplace expectations. Participants gain hands-on experience that builds confidence and competence in civil construction practices. The courses also support career growth by opening pathways to higher-level qualifications and specialized roles within the industry. With a strong focus on safety, quality, and efficiency, learners are prepared to contribute effectively to modern infrastructure projects. Completing this training empowers individuals to become skilled, responsible, and competitive professionals in the civil construction sector.

03 Civil Construction Trainings: Short Courses

Plumbing Hand

Understand and describe basic plumbing principles, Install and maintain a water supply system under supervision, Install and maintain a below ground drainage system under supervision, Install and maintain above ground drainage components and sanitary fittings under supervision

15 Days **R 8065.00**

TARGET GR
Anyone

Bricklayer

Learner will be able to Interpret working drawings and prepare cutting lists, set out buildings, Erect, use and dismantle scaffolding, Construct templates and jigs and Stack, store and position materials, tools and equipment.

15 Days **R 8065.00**

TARGET GR
Anyone

Carpentry

Learners gain skills in determining materials, preparing work areas, fitting and assembling internal and external building fixtures, and adhering to building regulations and energy efficiency standards.

15 Days **R 8065.00**

TARGET GR
Anyone

Paving

Learner will be able to Select materials, tools and equipment to perform specified precast block paving work, cut edges of precast block paving according to specification, Mix filler, substrate layer and bedding materials for precast block paving and lay precast block paving.

15 Days **R 6990.00**

TARGET GR
Anyonee

Plastering

Learner will be able to set out work for plastering, prepare work surfaces for plastering, Mix plaster, screed and grano.

15 Days **R 6990.00**

TARGET GR
Anyone

Painting

Learner will be able to Prepare materials, tools and equipment for applying primer and paint, prime surfaces for painting, coat surfaces with paint, demonstrate a responsibility toward the safety of self, others and the environment

15 Days **R 6990.00**

TARGET GR
Anyone

Roofing and Gazing

Leaners will be able to prepare materials for roofing and glazing by setting out and prepare for roofing.

TARGET GR
Anyone

15 Days **R 6990.00**

Concrete Hand

Leaners will be able to prepare to mix concrete, Measure and add materials to the concrete mix, Mix and load the concrete & conduct post mixing activities.

TARGET GR
Anyone

15 days **R 5700.00**

Shatter Hand

Leaner will be able to Conduct planning activities associated with the fabrication of formwork, fabricate a range of steel and timber formwork and conduct post-fabrication activities, conduct planning activities associated with the erection of support work, erect a range of steel or timber formwork and strip a range of steel and timber formwork

TARGET GR
Anyone

3 months **R 5700.00**

Tiling

Learner will be able to Select materials, tools and equipment for specified tiling work, cut tiles according to specification, prepare surfaces for tiling and mix adhesive and grout

TARGET GR
Anyone

3 months **R 6990.00**

Steel Fixing

Leaners will be able to Prepare work area, prepare to fix reinforcing steel, fix reinforcing and Describe types and uses of reinforcing.

TARGET GR
Anyone

15 Days **R 5700.00**

Welder

Learner will be able to describe and assemble the shielded metal arc welding equipment. Select, assemble and conduct pre operational checks of shielded metal arc welding equipment. Prepare workpieces prior to welding, weld workpieces.

TARGET GR
Anyone

3 Months **R 9138.00**

Civil Construction Skills Programmes

Tranings Overview

Civil Construction Skills Programmes at B-Safe Africa Training Academy are designed to provide learners with structured, practical training that meets the demands of the modern construction industry. These programmes enhance employability by equipping participants with hands-on skills, technical knowledge, and workplace readiness. Aligned with accredited bodies and industry standards, our training ensures quality, credibility, and national recognition. Learners benefit from a strong emphasis on safety, compliance, and best construction practices. The programmes also create pathways for career advancement and further professional development within the civil construction sector. Completing this training empowers individuals with the confidence, competence, and certification needed to succeed in a competitive industry.

04 Civil Construction Skills Programmes

Plumbing Hand

Understand and describe basic plumbing principles, Install and maintain a water supply system under supervision, Install and maintain a below ground drainage system under supervision, Install and maintain above ground drainage components and sanitary fittings under supervision

3 Months **R 21 000.00**

TARGET GR
Anyone

Bricklayer

Learner will be able to Interpret working drawings and prepare cutting lists, set out buildings, Erect, use and dismantle scaffolding, Construct templates and jigs and Stack, store and position materials, tools and equipment.

3 Months **R 23 000.00**

TARGET GR
Anyone

Carpentry

Learners gain skills in determining materials, preparing work areas, fitting and assembling internal and external building fixtures, and adhering to building regulations and energy efficiency standards.

3 Months **R 23 000.00**

TARGET GR
Anyone

Paving

Learner will be able to Select materials, tools and equipment to perform specified precast block paving work, cut edges of precast block paving according to specification, Mix filler, substrate layer and bedding materials for precast block paving and lay precast block paving.

3 Months **R 22 000.00**

TARGET GR
Anyonee

Plastering

Learner will be able to set out work for plastering, prepare work surfaces for plastering, Mix plaster, screed and grano.

3 Months **R 21 000.00**

TARGET GR
Anyone

Painting

Learner will be able to Prepare materials, tools and equipment for applying primer and paint, prime surfaces for painting, coat surfaces with paint, demonstrate a responsibility toward the safety of self, others and the environment

3 Months **R 21 000.00**

TARGET GR
Anyone

Roofing and Gazing

Leaners will be able to prepare materials for roofing and glazing by setting out and prepare for roofing.

TARGET GR
Anyone

3 Months **R 21 000.00**

Concrete Hand

Leaners will be able to prepare to mix concrete, Measure and add materials to the concrete mix, Mix and load the concrete & conduct post mixing activities.

TARGET GR
Anyone

3 Months **R 21 000.00**

Shatter Hand

Leaner will be able to Conduct planning activities associated with the fabrication of formwork, fabricate a range of steel and timber formwork and conduct post-fabrication activities, conduct planning activities associated with the erection of support work, erect a range of steel or timber formwork and strip a range of steel and timber formwork.

TARGET GR
Anyone

3 Months **R 21 000.00**

Tiling

Learner will be able to Select materials, tools and equipment for specified tiling work, cut tiles according to specification, prepare surfaces for tiling and mix adhesive and grout

TARGET GR
Anyone

3 months **R 21 000.00**

Steel Fixing

Leaners will be able to Prepare work area, prepare to fix reinforcing steel, fix reinforcing and Describe types and uses of reinforcing.

TARGET GR
Anyone

3 Months **R 21 000.00**

Welder

Learner will be able to describe and assemble the shielded metal arc welding equipment. Select, assemble and conduct pre operational checks of shielded metal arc welding equipment. Prepare workpieces prior to welding, weld workpieces.

TARGET GR
Anyone

3 Months **R 23 500.00**

Lifting Machinery Trainings

Tranings Overview

Lift Machinery Training at B-Safe Africa Training Academy equips learners with the essential skills and knowledge to safely operate and maintain lifting equipment in construction and industrial environments. This programme focuses on practical, hands-on training aligned with industry regulations and accredited standards. Participants gain a strong understanding of safety procedures, load handling, and equipment inspection. The training enhances employability by preparing learners for high-demand roles requiring certified lifting machinery operators. With an emphasis on compliance and risk management, learners are trained to work efficiently while minimizing workplace hazards. Completing this course ensures confidence, competence, and recognized certification for a successful career in lifting operations.

05 Lifting Machinery Trainings

Overhead Crane Operator

The qualifying learner is capable to demonstrate an integrated practical and theoretical grounding in Crane Operations according to safe handling and maintenance practices in compliance with crane manufacturers and legislated standards.

10 days **R 5915.00**

TARGET GR
Supervisors, Artisans, Skilled Workers, Assessors, Facilitators & Moderators

Mobile Crane Operator

The qualifying learner is capable to demonstrate an integrated practical and theoretical grounding in Crane Operations according to safe handling and maintenance practices in compliance with crane manufacturers and legislated standards.

10 days **R 5915.00**

TARGET GR
Supervisors, Artisans, Skilled Workers, Assessors, Facilitators & Moderators

Tower Crane Operator

The qualifying learner is capable to demonstrate an integrated practical and theoretical grounding in Crane Operations according to safe handling and maintenance practices in compliance with crane manufacturers and legislated standards.

10 days **R 5915.00**

TARGET GR
Supervisors, Artisans, Skilled Workers

Purpose Lift Trucks Operator

The qualifying learner is capable of Inspecting and recording the operational fitness of battery powered lift trucks. Identifying and classifying freight/ loads. Handling, loading and storing freight. Achieving maximum work performance of battery powered lifting equipment and attachments. Operating freight equipment. Accessing available emergency support systems and services.

10 days **R3765.00**

TARGET GR
Supervisors, Artisans, Skilled Workers

Counter-Balanced Lift Truck Operator

Learners will be capable of Inspecting and recording the operational fitness of battery powered lift trucks. Identifying and classifying freight/ loads. Handling, loading and storing freight. Achieving maximum work performance of battery powered lifting equipment and attachments.

10 days **R 3900.00**

TARGET GR
Supervisors, Artisans, Skilled Workers

Truck-Mounted Cranes Operator

The qualifying learner is capable of: Demonstrating knowledge of the functions of a truck mounted crane. Identifying the safety and suitability of the crane. Inspecting and recording the operational fitness of the components of the truck and crane. Operating a truck mounted crane. Accessing available support systems and emergency services in case of incidents and accidents.

TARGET GR
Supervisors,
Artisans, Skilled Workers

10 days **R 5915.00**

Heavy Crane Operator

Learners will be capable of identifying the safety and suitability of crane type prior to utilization thereof, giving consideration to freight characteristics, equipment manufactures requirements and environmental conditions. Applying the recognized methods for inspecting and recording the operational fitness of all components of the crane with reference to safety procedures in the workplace.

TARGET GR
Supervisors,
Artisans, Skilled Workers

10 days **R 6450.00**

National Certificate Qualifications

Tranings Overview

National Certification Qualifications at B-Safe Africa Training Academy are designed to provide learners with formally recognized credentials that meet national education and industry standards. These qualifications combine theoretical knowledge with practical training to ensure workplace competence and readiness. Aligned with accredited bodies, our programmes guarantee credibility, compliance, and quality assurance. Learners gain valuable skills that enhance employability and open doors to career advancement across the civil construction sector. The qualifications also create pathways for further education and professional development. Completing a nationally recognized certification empowers individuals with the confidence, recognition, and expertise needed to succeed in today's competitive job market.

06 National Certificate Qualifications

National Certificate: Occupational Health and Safety Officer/Practitioner

This course aims to empower aspiring Safety Officer with knowledge and skills of a Safety Officer in the workplace. It can is customized to equip the learner with almost all requirements of being a successful Safety Officer. One of its unique characteristics is that it can be customized to cater for both the Mining Safety Officer and Industry Safety Officer.

TARGET GR
Anyone, Construction Companies Owners, Supervisors

24 months **Free Structure below**

Red Seal: Bricklaying

Learners acquiring this qualification will be able to plan construction activities using mathematical principles, communicate with relevant persons, Plan construction activity, Establish work area, Execute construction activities

TARGET GR
Anyone, Construction Companies Owners, Supervisors

36 months **Free Structure below**

National Certificate: Bricklaying

A qualified learner will be able to: Plan and prepare site, material, tools and equipment for the laying of bricks. Lay bricks face and plaster), stone (natural and pre-cut) and block, to construct, repair and/or make alterations to substructures and superstructures. Conduct bricklaying finishing operations.

TARGET GR
Anyone, Construction Companies Owners, Supervisors

12 months **Free Structure below**

National Certificate: Plumbing

Qualifying learners will be able to: Identify and solve problems with practical mathematical applications. Communicate in verbal or written form with peers, members of supervisory/management levels and others. Apply understanding of the functioning of plumbing systems to install, test and maintain them in a built environment.

TARGET GR
Anyone, Construction Companies Owners, Supervisors

12 months **Free Structure below**

National Certificate: Community House Building

The purpose of the qualification is to provide learners` as well as providers of Education and training with national standards that represent the competencies required to meet the challenges of participating effectively in the building construction industry as a multi skilled practitioner.

TARGET GR
Anyone, Construction Companies Owners, Supervisors

12 months **Free Structure below**

National Certificate: Business and Civil Construction

Typically, qualifying learners are employed in the construction sector as painters, Tillers, plasterers, masons, joiners, carpenters, roofers, or are self-employed as micro-enterprise owners who provide services to construction contractors and members of the public (e.g. private households). section heads.

TARGET GR
Anyone, Construction Companies Owners, Supervisors

12 months **Free Structure below**

Community Development

Qualifying learners will be able to: Identify and solve problems with practical mathematical applications. Communicate in verbal or written form with peers, members of supervisory/management levels and others. Apply understanding of the functioning of plumbing systems to install, test and maintain them in a built environment.

TARGET GR
Anyone, Construction Companies Owners, Supervisors

6 months **Free Structure below**

Environmental Management

This Qualification is for any individual who is, or wishes to be, involved as an officer in the environmental management sector especially in the fields of environmental science, environmental management and waste management.

TARGET GR
Anyone, Construction Companies Owners, Supervisors

On hold **Free Structure below**

PAYMENT TERMS FOR THE NATIONAL CERTIFICATES

Registration Fee @ R1500.00 and First Installment
Total Amount divided by 6 months to make the monthly installments.
NOTE: The total amount to the course must be paid 6 months before the programme ends.
